PROFESSIONAL SUMMARY

Motivated M.Sc. Software Engineering student and aspiring Full-Stack Developer with hands-on project experience in React, TypeScript, Node.js, Fastify, Express.js, PostgreSQL, and AI/LLM applications. Skilled in building role-based web applications, REST APIs, database integrations, and multilingual AI assistants. Seeking an entry-level Full-Stack Developer or Software Engineer role to deliver secure, efficient, and user-friendly applications.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++,
- **Frontend:** HTML5, CSS3, React, Vite, Tailwind CSS
- **Backend:** Node.js, Express.js, Fastify, Flask, REST APIs
- **Databases:** MySQL, PostgreSQL, SQLite
- **AI Technologies:** Ollama, Local LLMs, AI Assistant Development
- **Tools & Testing:** Git, GitHub, VS Code, pnpm, Vitest, Playwright

PROJECTS

Smart Cloud Kitchen Management Platform *[Month Year] – Present*
Full-Stack Web Application

- Built 3 role-based dashboards for Customer, Admin, and Kitchen users to support food ordering, meal customization, inventory management, order processing, and kitchen workflows.
- Developed REST API integrations and PostgreSQL database models using Drizzle ORM and Zod validation.
- **Technologies:** React, TypeScript, Vite, Tailwind CSS, Node.js, Fastify, PostgreSQL, Drizzle ORM, Zod.
- **GitHub:** [Add project repo link]

NILA AI – Personal AI Assistant *[Month Year] – Present*
AI Application

- Developed a multilingual AI assistant supporting Tamil, English, and Tanglish with voice interaction, conversational memory, and PC automation.
- Implemented local LLM integration using Ollama to support private, offline AI interactions.
- **Technologies:** Python, TypeScript, Ollama, Local LLMs.
- **GitHub:** [Add project repo link]

7 Brothers Seafood *[Month Year] – Present*
E-commerce Platform

- Built customer and admin interfaces for a seafood e-commerce platform, including product catalogue, order management, and database integration.
- Integrated PostgreSQL and Supabase for product, order, and user data management.
- **Technologies:** React, TypeScript, Node.js, Express.js, PostgreSQL, Supabase.
- **GitHub:** [Add project repo link]

EDUCATION

M.Sc. Software Engineering (Integrated 5-Year Programme) *2022–2027 (Pursuing)*
Annamalai University, Chidambaram, Tamil Nadu, India
Relevant Coursework: Data Structures, Database Management Systems, Web Development, Object-Oriented Programming, Software Engineering, Artificial Intelligence.

LANGUAGES

English (Professional) , Tamil (Native)
